NATIONAL REGISTRATION AND ACCREDITATION SCHEME FOR THE  
HEALTH PROFESSIONS CONSULTATION PAPER  
Other matters for inclusion in Bill B

Thank you for the opportunity to comment on this document.

In regards to *Proposal 3.5.3*, we agree it is important to have adequate representation by registrants in the same profession.

In regards to ***Proposal 3.5.4*** we agree it is important to have an independent membership of any membership that has not been involved in any prior decision making.

In regards to ***Proposal 4.1.2***, we would like to see Option 1 used, as this would seem to ensure a broad and fair representation, with a transparent process that is least open to any individual or political interference.

In regards to ***Proposal 4.1.3***, we would like to see Option 1 used for reasons as outlined above in regards to Proposal 4.1.2.

In regards to ***Proposal 6.1***, as an organization that represents Australian and New Zealand Doctors, we think a Trans Tasman approach is important and would agree with this proposal.

Yours sincerely
