

Attention: Practitioner Regulation Subcommittee

The NSW Psychologists Registration Board welcomes the invitation to comment on the Consultation Paper on Proposed arrangements for handling complaints, and dealing with performance, health and conduct matters.

The NSW Psychologists Registration Board supports the Council of Psychologists Registration Boards (CPRB) response, to which it is a party.

In addition, the NSW Psychologists Registration Board would like to emphasise that the current arrangements with regards the Health Care Complaints Commission within NSW are viewed in a positive light, and would like to see the strengths of the HCCC arrangements retained in the National scheme, particularly the separation of powers and a role for independent investigation separate from the Board.

Yours sincerely  
Mary Shanahan
